WATER CONSERVATION POLICY

Preamble

“No Life without Water”. Water is the basic need of all living being in this world. We should save water and use it properly.

Policy

- To promote effective water management, rain water harvesting system is adopted.
- Most of the toilets are fixed with push type tapes.
- To utilize water efficiently with environmental consciousness and find opportunities for reusing water.
- To inspect draining taps and repair immediately to avoid loss of potable water.
- To resolve and manage water scarcity problem regularly.
- To protect environment towards climatic changes and conservation of resources for drinking water.
- Students are frequently instructed with the importance of water conservation and how to avoid water wastage.
- Save water stickers are placed near taps.
